ISV/Software Solutions
Business Process and Integration

New Features in eSSS 5.0

ID	TITLE	DESCRIPTION
9743	Nodus ePay Recurring Billing Integration	Integrate with Nodus ePay Recurring Billing module to offer product sales on recurring basis.
10656	AvaTax – Tax Schedule ID with Postfix	AvaTax with Tax Schedule ID using State as postfix is now supported.
964	Discount Conditions	Supports “Buy X Product, and Receive \$/% Off” discount scenarios, as well as bundled discounts such as “\$10 off when you purchase a shampoo product with a conditioner product”.
2356	Saved Carts	Allow multiple carts saved for later use and sharing with peers. Will also benefit CSR users to easily share a list of products with clients. Hyper-link to a saved cart also allows using the feature in marketing campaigns with multiple products.
3173	Customer Specific Payment Method	Use GP Payment Term assigned on Customer records to control which payment methods to offer to which customer.
3281	Customer/Item Record Deletion Synchronization	Added option to remove the Customers and Items records deleted from GP. (Configured through the Synchronizer)
8297	Discount Code Entry on Cart Page	Customers can now enter discount codes on the cart page.
8682	Allow Control of Button Image File Type	Web designer can now use GIF, JPG, as well as PNG file formats for button images when styling the theme.
10092	Mail Server Configuration Supporting SSL	SSL is now supported with mail server communications.
10093	Shipping Estimator on Cart Page	Customers are now able to obtain shipping charge estimates on the cart page.
10607	Initial Setup Check List	Built-in check list for initial configurations.
10609	New “NodusGray” Theme	New theme is provided which also demonstrates ability to style single column layout on the homepage.

ID	TITLE	DESCRIPTION
10864	ValuTec Giftcard Support	New gift card type tender supported through the gift card vendor ValuTec. Supports the sale and redemption of gift cards.
12053	.Net Framework 4.0	.Net Framework is upgraded to version 4.0
12331	PayPal's Hosted Page Support	Replace credit card entry interface with PayPal's hosted page to reduce PCI responsibility. (Requires PayPal gateway account.)
12504	Additional Images Thumbnails	Displays thumbnails of additional product images on the product details page.
12788	Mobile Ready	Added option to redirect visitors on mobile devices to a designated URL. APIs are also provided for complete core functionalities for building mobile pages.
12854	Discounts Prompt	Allows customized message to be displayed to prompt customers that a promotion is available.
2709	CVV2 Mismatch	eSSS now handles rejecting CVV2 mismatches without having to turn on CVV2 mismatch rejection feature on the gateway account.
8156	AvaTax for Anonymous Checkout	Added AvaTax support for Anonymous Checkout
10447	Default Price Levels	Administrator will now be able to assign a Price Level to new customer records, and assign a separate Price Level to be used before the customer logging in.
