

Overview

- eStore Advantage is an Internet Application Integration (IAI) solution that connects your front office web applications to your back office Microsoft Dynamics GP Business environment.
- It utilizes Microsoft Business Solutions eConnect Enterprise Application Integration (EAI) interface, taking advantage of transaction-based business logic in Great Plains.
- Its an XML-based highly flexible interface that can be customized to fulfill all you sales order processing needs.

Supported Functionality

Front to Back Office Connectivity

- By default uses web service to interface with back office server *(Available Upon Customization Request)*
- For intranet implementations, could be configured to directly communicate with the eConnect (EAI) interface
