

## For Microsoft Dynamics GP

Credit Card and eCheck Processing

Receivables Automation

Self-Service Payment Portal

Simplify your payment acceptance by processing secure electronic payments directly within Microsoft Dynamics GP.

### Automate

Send automatically triggered invoice notifications and payment receipts to customers.

### Empower

Direct customers to your branded self-service payment portal where they can view and pay their invoices online.

### Integrate

Process secure transactions directly from Dynamics GP Orders, Invoices and Cash Receipts.

### Secure

Keep sensitive credit card and account information away from your business by sending secure payment links directly to customers.

### Schedule

Sign up customers for automated recurring payments with flexible scheduling options.

### Save

Receive the best payment processing rates by sending full transaction details pulled from Dynamics GP.

Businesses that rely more on manual AR processes have been found to have **30% longer** Days Sales Outstanding (DSO) averages than businesses who rely more on automated AR processes.
