What's New in eSSS 6.0.1 | Integrated eCommerce Solution

Content Editor for Responsive Design

Provide better user experience for administrative user and/or web designer to layout the eCommerce website.

New Facelift for Admin Portal

The admin portal has undergone a makeover to give it a brand new look and feel.

Purge Historical Orders

Admin user now has option to remove historical order by defining how old eSSS site should keep orders in its database for space saving.

Enhance Email Templates

Customer always appreciates a clean and professional looking email notification. We have our designer team updates all the email templates to give them a new look.

Support ReCaptcha 2.0

To provide user with a streamline captcha experience, we have updated our Google ReCaptcha to 2.0

New Text Editor with CKEditor

CKEditor provides simple and classy user interface for text editor.

| TITLE	DESCRIPTION
Content Editor for Responsive Design	Provide better user experience for administrative user and/or web designer to layout the eCommerce website.
New User Interface for Admin Portal	Provide a new styling and layout for the admin portal.
Purge Historical Orders	Provide admin user the ability to purge and remove historical orders.
Enhance Email Templates	Update all existing email templates to provide a new look and feel.
Support ReCaptcha 2.0	Upgrade Google ReCaptcha to version 2.0 to provide better captcha experience for site users.
New Text Editor with CKEditor	Replace all existing text editor functionalities with CKEditor
Two-factor Authentication for Password Reset	Enhance the password reset functionality for better security.
Enhancement to Recurring Billing Contract Settings.	Allow admin user to configure Recurring Billing Contracts Settings to either: 1. Send all RB Items in the order to ePAy in the same Contract <u>or</u> 2. Send different Contract to ePay for each RB item
Enhancement to Product Image Slider	Adopt Slide Lightbox and Slider to implement product image slider and gallery to better improve the user experience for product swatch.
Mastercard 2-series BIN Support	Enhance the credit card validation to support the new added 2-series BIN for Mastercard.
Update User Sign-in Logic	Remove Customer ID as the UserID option. Valid UserID can be either a unique email address or username.
Switch popup model	Swap all greybox popup to boostrap modal popup.
Enhance packaging splitting logic	When sending package to shipping carrier, even when the item weight exceeds the maximum weight, eSSS will not autobreak the package if it only contains one item.
HTML Content from Customer Choice	Fix the html loading issue with html content from edit product's choice.
Responsive UI issues	Address accumulative responsive UI issues
National Account page loading issue	Address redirect loop if regular user attempts to access national account page.
Submit First/Last/Middle Name info to PayFabric	Enable First/Middle/Last Name to be submitted to PayFabric from eSSS's shipping address.
Facebook metatag issue	Since Facebook metatag does not accept space, eSSS URL Encodes the image URL to address all space.
CSS Class Name Updates	Update all class names to start with lower-case letter.
